Inventory Will Close Commissary July 31

The Lago Commissary will be closed all day Tuesday, July 31, for inventory.

Employee Family Members Will Need New Commissary Identification Cards Sept. 1

Employee family members who shop at the Lago Commissary after Aug. 31 will need the new white com missary identification cards the company will begin to issue in July. The new cards will be identical to the ones currently being used except for the color white instead of green As in the past, a photo of the carbearer will be attached to the card

First to be issued the identified tion cards will be wives of employ ees and annuitants. They will be g ven a new card in exchange for th old at the entrance turnstile at Lago Commissary. New cards will be is sued starting July 16.

Employees who have obtained green cards for sons, daughters family members other than wives will be required to re-apply at the Lago Commissary office for the new white card because of possible changes in marital status of the family member or because of identity changes through age difference.

Applications for these cards wil be accepted after July 16. The present green identification cards approved for family members will be hon! ored until closing time Aug. 31.

Miembronan di Familia di Empleado Mester Carchi Nobo di Comisario Sept. 1º

Miembronan di familia di emplea donan kende ta haci compras na Lags Commissary, despues di Aug. 31, le tin mester di e carchi blanco nobo de Comisario, cual compania lo cuminza duna na Juli. E carchinan nobo lo ta identico na esnan cu ta worde use actualmente, excepto pa e color pasado, un foto di donjo di e carchi lo aparece ariba.

Lago Men At Work...

Of the sixty-six employees it takes to keep Lago's machine tools whirling, most are mechanics with special skills. This is understandable when one considers that a moment of carelessness on the part of a novice could lead to the shutdown of a process unit and might ruin a machine tool worth tens of thousands of guilders.

The big horizontal boring mill, for example, represents an investment equal to thirty-five new American cars or fifteen medium-sized houses. The machine is the responsibility of just one first-class machinist who sometimes requires the services of a helper. Like the dozens of other machine tools in the Machine Shop - lathes, milling machines, cylinder grinders, drill presses and shapers — the big boring mill is the only tool that can bore big heat exchanger shells over ten feet long and five feet high.

Every machine tool in the shop has to be in tip-top mechanical condition and have a conscientious operator so that the high machining standards dictated by fine-tolerance repair jobs can be met.

(Continued on page 8)

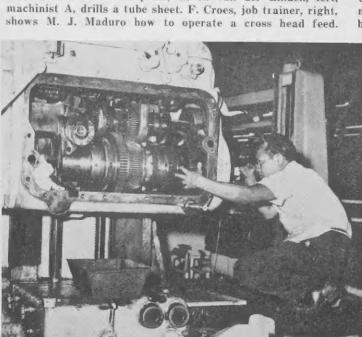

Hendenan Na Traba**o**...

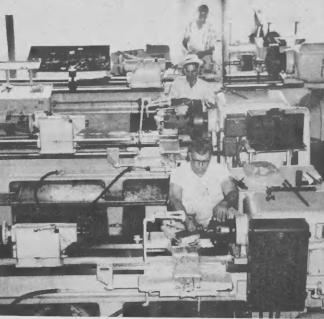

Di e sesenta y seis empleado cu tin mester pa tene e hermentnan di mashien na Lago trahando, mas cu mitar ta hombernan di ofishi di promer clase. Esaki ta comprendible si un hende considera cu un momento di descuido pa parti di un novato por causa shutdown di un unidad di refineria y por ruina un pieza cu ta costa docenas di miles di florin.

E mashien grandi di bora horizontal, por ehemplo, ta representa un inverticion igual na trinta y cinco auto Americano nobo of diez-cinco cas di tamanjo mediano. E mashien ta responsabilidad di solamente un machinist promer clase, kende a veces tin mester di servicio di un ayudante. Mescos cu e docenas di otro mashiennan di Machine Shop - lathe, mashien di bora, grinders di cylinder, drill press y shapers e mashien grandi di bora ta un necesidad pa trata cu shell grandi di heat exchanger mas di diez pia largo y cinco pia halto.

Cada mashien den e shop mester ta den excelente condicion y mester tin un operador experto asina cu e demandanan di un trabao fini por worde cumpli.

Chubby Checker, the entertainer who put the capital T in the Twist, had nearly 3000 spectators in the palm of his hand at Lago Sport Park June 22. The lad who took a run-of-the-mill tin-pan alley tune and parlayed it into a two-million-record hit and national dance craze had a grandstand full of youngsters and oldsters twisting in their seats, in the aisles and on the Sport Park stage.

Chubby gave the crowd what they wanted - the official Chubby Checker version of the Twist in time with the fast tempo of the versatile Carroll Brothers.

To many of the teenagers present, Chubby's contortions and gyrations were pure art. The youngsters whistled and burst forth with that high-pitched squeal limited to youthful vocal chords. They either were too overcome to demonstrate or they became so jubilant that they twisted to the stage uninvited.

An exhausted Chubby Checker ended his program to an ovation heard many blocks from the park. One young lady, Jane Lacle, had a thrilling experience when she received a kiss from her king. She presented Chubby a bouquet in behalf of the Jolly Teeners Club, twisters all.

Chubby gave his second performance of the evening at the Esso Club where he was greeted by a fresh squad of teenagers and several hundred adults.

Chubby Checker, e artista cu a pone e T capital den Twist, tabatin casi 3000 mirones den su planta di man na Lago Sport Park Juni 22. E tercio cu a coi un cancion ordinario y cambie'le den un disco cu a bati record di dos milion y un afición nacional di baile, tabatin un man yen di hende hoben y bieuw ta twist ariba nan sienta, den hanchinan y ariba podio di Sport Park.

Chubby a duna multitud loke esaki tabata kier — e version oficial di Chubby Checker di Twist al compas di e tempo liher di e versátil Carroll Brothers.

Pa hopi di e hobennan presente, e contorciones y giracionnan di Chubby tabata puro arte. E hobennan tabata fluit y rezona nan gritonan di alegría na manera cu hoben sol por. Sea nan tabata mucho bao impresion pa demonstra of nan a bira asina jubilante cu nan a corre subi podio na baliamento di twist sin cu nan a worde invitá.

Un Chubby Checker cansá a termina su programa ariba un ovacion tendi na un gran distancia for di park. Un hoben senjorita, Jane Lacle, tabatin un excitante experiencia ora el a recibi un sunchi for di su idolo. El a presenta Chubby un bouquet na nomber di Jolly Teeners Club, tur twisters.

Chubby a duna su segundo actuacion di anochi na Esso Club unda el a worde saludá pa un otro grupo di hoben y varios cientos di hende grandi.

EVERY AVAILABLE seat at Lago Sport Pa taken for the big Chubby Checker show June king of the Twist got an enthusiastic welcome w appeared, below, from oldsters as well as your After the park concert, Chubby gave a duplica formance at the Esso Club.

THE TEENAGERS shrieked and applauded as Chubby Checker, king of the Twist, went through his gyrations on the Lago Sport

year-old Ronnie Kenson, whose father, Gulio, is employed in Mechanical-Electrical. E HOBENNAN tabata grita y aplaudi mientras Chubby Checker, e rey di Twist, tabata pasa door di su giracionnan ariba podio di Lago Sport Park. Hasta esnan di mas chikito a drenta den e smaak di twist. E mucha homber chikito, leuw banda robez ta Ronnie Kenson, kende tin tres anja.

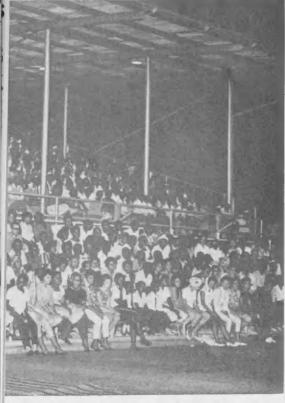

TH

IN THE mood, left, are members of the Carroll Brothers combo, Chubby's accompanists. DEN BON espírito, robez, ta miembronan di Carroll Brothers combo, acompaniistanan di programa. Poniendo e "twist" den e Twist ta bailadornan den a foto banda drechi. Chubby tabatin masha poco dificultad pa haya twisters pa competi den e concurso.

SIENTA disponible na Lago Sport Park tabata pa e gran show di Chubby Checker Juni 22, E i Twist a haya un bienvenida entusiastico ora el a ce, abao, for di bieuw y hoben igual. Despues di e erto na Lage Sport Park, Chubby a duna un actuacion similar na Esso Club.

dances broke out all over the park. An ex-hausted Chubby, left, received a bouquet from Jane Lacle on behalf of the Jolly Teeners Club. Her thrilling reward was a kiss from her idol. Smiling with approval is Mateo Reyes, chairman of the Lago Sport Park Board.

MIENTRAS CHUBBY tabata balia y twist, baile impromptu a estalla door di henter e park. Un Chubby cansá, robez, a recibi un bouquet for di Jane Laclé na nomber di Jolly Teeners Club. Su recompensa excitante tabata un sunchi for di su ídolo. Sonriendo cu aprobacion ta Mateo Reyes.

It's not unusual for neighbors to gather outside the doorway of the little house numbered 184 that sits near the sea at Savaneta, especially when cool evening breezes make it more comfortable to move about. The informal gathering often occurs when Antonio Thijsen begins plucking the thirty-six strings of his homemade harp.

Playing entirely by ear - he merely needs to hear a new tune a time or two to ingrain it into his memory - young Thijsen plays the folk tunes of Aruba and Curação to the delight of the neighborhood.

The same skilled and talented hands that play the harp are most unusual inasmuch as Mr. Thijsen builds the bulky yet graceful instruments using simple

About a year ago, he purchased a Mex-

ican harp for Fls. 340. Its tone and volume left much to be desired so Mr. Thijsen decided to build his own. He purchased sheets of Surinam plywood and a few lengths of red cedar. A craftsman friend offered to manufacture special screws for tightening the strings. Deciding he couldn't make the strings, he ordered the thirty-six he would eventually need from Venezuela.

A competent guitarist, Mr. Thijsen taught himself to play his Mexican harp which he continued to practice when relaxing from his harp-building hobby.

The tools he needed and used were few. A simple brace and bit, coping saw, chisel and light hammer were sufficient for most building steps. He did use an electricpowered hand sander for finishing the wood. In just one month, he produced his first harp which he promptly sold to a fellow musician. With the proceeds, he purchased materials for a bigger harp which he is in the process of making.

With a natural finish of clear lacquer, the home-made harp is a thing of beauty. Using ingenious checking devices, Mr. Thijsen has spaced the thirty-six strings in a perfectly parallel order. The red cedar upright bar strongly contrasts with the dark string frame and natural plywood sound box.

Mr. Thijsen explains that he uses just thirty-six strings instead of the forty-six found on a concert harp because he finds the smaller number sufficient for most music. With his left-hand fingers he picks out bass notes while simultaneously picking out the melody with his right-hand

Mr. Thijsen says with authority that the harp is much easier to learn to play than the guitar.

A NATURAL musician is Antonio Thijsen of Savaneta who makes the harps he plays. UN MUSICO natural ta Antonio Thijsen kende ta traha na man e harpanan cu el ta toca.

Hoben di Savaneta A Traha Su Instrumento Musical

No ta stranjo pa bicinjanan reuni pafor diar porta di e cas chikito cu number 184 canto 2 di lamar na Savaneta, specialmente ora ewl brisa suave di anochi ta invita pa sali for din; cas. E sorto di encuentronan aki ta socedeat ora Antonio Thijsen cuminza pasa su dedenan over di e trinta y seis cuerde di su harpa

Tocando henteramente for di oído - solamente el mester tende un tono nobo un vez of dos p'esaki drenta su memoria — e hoben Thijsen ta toca e cancionnan popular di Aruba y Curação pa deleite di su bicinjanan.

E mes mannan yen di abilidad y talento cu ta toca e harpa ta masha inusitado en cuanto cu Sr. Thijsen ta traha e instrumentonan musical su mes usando simple herment di man.

Harpa Mexicano

Mas of menos un anja pasá, el a cumpra un harpa Mexicano pa Fls. 340. Su tono y volumen a laga hopi di desea, y asina Sr Thijsen a decidi di traha uno su mes. El cumpra plachi di plywood di Surinam y algun repi di cedar corrá. Un amigo di ofishi a ofrece pa traha schroef special pa mara cuerdenan. Decidiendo cu el no por a traha cuerdenan, el a encarga e trinta y seis cu e lo tin mester eventualmente for di Venezuela.

Un competente guitarista, Sr. Thijsen a sinja su mes toca su harpa Mexicano, cual el a sigui practica mientras cu el no ta traha

ariba construccion di su harpa. E hermentnan cu el tabatin mester tabata masha poco. Un simple boor, zaag, beitel y martillo liher tabata suficiente pa mayor parti di e trabao. El a usa un mashien di schuur di coriente pa acaba e palo. Den solamente un luna el a completa su promer harpa cu el a bende mes ora cu un companjero musicante. Cu e placa, el a cumpra material pa un harpa mas grandi cu el ta trahando.

Cu un capa natural di lacquer color cla, e harpa ta un preciosidad, Usando ingenioso métodonan di check, Sr. Thijsen a espacia e trinta y seis cuerdenan perfectamente pareuw. E man di cedar corrá ta forma un contraste fuerte cu e frame color scur y e curpa di plywood natural.

WHEN ANTONIO needs an extra pair of hands he calls on his father, Asuncion, a fisherman. They fix the cedar bar to string frame and sound box, above. Antonio glues the string frame, below, to the cedar bar.

ORA ANTONIO tin mester di ayudo, el ta yama su tata Asuncion, un piscador. Nan ta pone e man di cedar na e frame y curpa, ariba. Antonio ta pega e frame cu lijm, abau, na e man di cedar.

USING ONLY hand tools, Antonio constructs an instrument of beauty from plywood and cedar.

It takes him a month to make a harp.

USANDO SOLAMENTE herment di man, Antonio

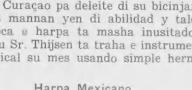

ta traha un instrumento precioso for di plywood y

He tunes the remaining strings by ear. For several months, he has been playing with Los robez. Durante varios luna el ta toca cu Los Casinos, centro, un grupo musical di masha Casinos, center, a highly-talented musical group. Antonio's niece, Jenny Duymm, right, shows talento. Sobrina di Antonio, Jenny Duymm, banda drechi, ta munstra admiracion pa e man complete admiration for her uncle's talented fingers and hands. Antonio plays entirely by ear. y dedenan talentoso di su omo. Antonio ta toca henteramente un oido, y sin faya tambe,

USING A special key and tuning whistle, Antonio adjusts the pitch on the first string, left. USANDO UN yabi special y templador, Antonio ta ahusta e zonido ariba e promer cuerde,

Travelogue, Glenn Orbit Are Most Popular Films In January-June Showings

Two films, "Wonderful World" and Friendship Seven-Glenn in His Orbital Flight," proved to be the most popular during the first six months of 1962 Public Relations Department showings. Total attendance for all film showings was 8415.

The travelogue was seen by 3418 persons during its short run of slightly over a month. More than 2600 attended showings of John Glenn in orbit. This film was available only during the last week in May and the first week in June. The Public Relations Department is attempting to obtain the film later this year for additional showings. A long waiting list of organizations is on file for scheduled showings of the Glenn orbit if and when it is made avail-

Slightly over 1600 persons saw the exceptional color film of Glenn's historic flight at regular Public Relations showings. An additional 1000 saw it at other showings for which the film was made available by the department.

"Roots of Happiness," a sociological study of two Puerto Rican families, had its popularity enhanced in May when the Public Relations Department added a Papiamento sound track to the film. Since that time, several hundred have seen the film.

February was the most active month in the PR film program, inaugurated several years ago, when 2835 attended showings.

Films selected for showings are entertaining yet, in many cases, are educational as well. Subjects range from travel films to international sports events and exciting Disney nature films.

Nine new Walt Disney films were recently added to the PR film library. Three are nature films, two are health cartoons, travel is the subject of two and two feature space

Large Group Presented 25-Year Service Watches At July 4 Ceremonies

For the third month in a row, an impressively large group of longservice employees received twentyfive-year service watches at special ceremonies held at the Reception

The group honored July 4 numbered twenty. In June the gold service watches were presented to seventeen employees. At the May ceremonies, watches were received by twentynine employees who had attained a quarter-century of Lago service.

Watch recipients July 4 were P. Lacle, L. Boekhoudt, N. Everon, C. Rosario and L. Geerman, Pipe Craft; J. J. R. Beaujon and L. A. Arndell, Instrument, all of the Mechanical Department; J. B. Opdyke and R. V Dorwart, Engineering; J. H. Watkins and W. L. Curtiss, Process, all of the Technical Service Department; A. T. Spanner, Light Oils Finishing; J. Zagers, Cracking and Light Ends, and F. M. Rasmijn, Receiving and Shipping-Wharves, all of the Process Department; F. L. Lampre and C. R. Landsmark, Floating Equipment Division; M. D. Kock, Marine Office, all of the Marine Department; C. E. Lacle, Industrial Relations Department; C. Angela, Accounting Department, and M. Maduro, Medical Department.

The number of employees who have received the personally inscribed watches since the inception of the plan now total 1102.
